Costa Rica Sails for San Francisco Today.

ROANOKE DUE THIS MORNING

Tiverton Loaded and Ready for Sea—St. Nicholas Off For the North—F. A. Kilburn Due to Arrive—Rosecrans in and Up—Odds and Ends.

The demand for laborers on the I. R. & N. railway extension over on the north shore, has become quite acute, lately, and by way of meeting it, the Portland agencies are busy gathering new men and shipping them down daily. The Hassalo brought down 45 on Friday, and as the Nahcotta had left this side, the O. R. & N. people secured a couple of launches and dispatched them across the river, to avoid the chance of losing them again, to other fields of labor on this shore of the river.

The Lurline made a timely trip yesterday, doing good business both ways. On her down trip yesterday, one of her firemen undertook to build a fire in the cook's galley and being a bit too liberal with oil of some sort, wherewith to give it an impetus, he burned his hands and arms so badly as to necessitate his going to St. Mary's hospital here for careful treatment.

The towing steamers Oklahoma and Harvest Queen have both been doing overtime lately, carrying freight both ways between here and Portland, the Hassalo not being able to handle even half the business that offers.

The steamship Roanoke was expected in from the California coast last evening, but will probably not enter port until this morning sometime.

The steamship Costa Rica is due down from Portland this morning en route to San Francisco, and will leave out this afternoon.

The ship John Currier expects to pass out for Alaska this afternoon on the early flood tomorrow morning, Alaska bound.

The steamer North King is due down from Portland today en route to Alaska for service with the salmon fleet at Nushagak.

The American bark Louisiana will leave up for Stella today or tomorrow, to load ties for California delivery.

The oil tank steamer Rosecrans arrived in yesterday evening from San Francisco and went directly to Portland.

The steamer Tiverton has finished loading lumber at the Hume mills and cleared yesterday for California.

The good ship St. Nicholas has made her exit from the lower harbor and has squared away for Nushagak.

The steamer F. A. Kilburn is due in from the Bay City today or tomorrow.

RAILWAY RUMORS OF INTEREST

Old Astoria & South Coast Line To Be Revamped and Built Through the Nehalem Valley to Hillsboro.

As has been intimated in these columns several times during the past couple of months, there is now declared to be a deliberate and well-bolstered commercial venture afoot, having for its direct and potential object the revamping and final completion of the old Reed system, better known as the Astoria & South Coast Railway, which was destined, from its inception, to enter and vitalize the great Nehalem Valley.

The right-of-way people for the new concern, known of record as the Portland, Oregon Sea-Coast Railway Company, are in the field buying up, steadily and successfully, save in one or two specific instances, the rights of way along the old route. The new parties at interest claim to have floated their bonds in New York for \$3,000,000 and are going to prosecute the original franchise.

The new deeds conveying the rights-of-way are of the guaranty sort and shield the grantor against deprivation of the right to use the road to get their timber from the valley fastnesses to direct rail or water transportation and to market.

The Hill interests are said to be thoroughly taken care of in the program of the new people behind this deal, and that it has nothing in common with the Harriman nor the Lytle projects coming westward out from Hillsboro, the eastern terminus of this line.

The news is good news for it has substance and plenty of "pay-ore" behind it, as it will be, primarily, a timber road, the passenger and merchandise elements growing to the scheme as it shall develop, a feature that is, and will be, counted on with the utmost reliance by those who are now pushing its destinies.

This is the third line to head in for Astoria and will be as welcome as either of the others since it has the virtue of incalculable freightage in its grasp from the instant its iron shall connect source and market.

IT MAKES A DIFFERENCE.

It makes all the difference in the world to the convivial man where, and what, he drinks. Most men desire beauty and cleanliness, and handsome appointments in the saloon they patronize regularly, as well as the essential pre-requisite of genuine wines and liquors that are served to them. And these things are so particularly and properly conspicuous at Otto Sund's elegant resort, the Commercial, at No. 509 on the street of that name that they account thoroughly for the fixed and splendid custom he enjoys. There is nothing allowed to pass his counter but the best and choicest in every department of indulgence, and the service behind it all, is the most pleasing and satisfying in the city.

The delayed Boys' Spring Suits just came in at Herman Wise's.

Cured of Rheumatism.

Mr. Wm. Henry of Chatanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it is useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned. If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by Frank Hart, and Leading Druggists.

Don't Put Off.

For to-morrow what you can do today. If you put off buying a bottle of Ballard's Snow Liniment, when that pain comes you won't have any, buy a bottle today. It positively cured me of Rheumatism after others had failed." Sold by Hart's Drug Store.
